

## G508

### 8 FXS Ports VoIP Phone Adapter

The G508 is an upgraded VoIP adapter with 4 more ports than G504, providing more powerful functions for communication. It is portable, high-performance and easy-to-manage, and allows your analog telephones to connect to a VoIP system. The G508 supports advanced functions like 3-way conference, call waiting and call forwarding, improving collaboration and allowing for maximum productivity. It is an ideal choice for SOHO and small businesses.

#### Key Features and Benefits

##### 8 FXS Ports

It comes with 8 FXS ports that allow you to connect analog phones, fax machines, POS machines to the VoIP system, providing flexibility for office workers.

##### Fax support

It supports T.38 over SRTP, T.30 and G.711 fax standards, as well as Email to Fax and Fax to Email, which you can maximize the performance of the fax.

##### Good Voice Quality

The G508 supports smart Quality of Service (QoS) to ensure stable VoIP calls, and it supports 3-way conference that allows you to talk with two people at the same time, improving call experience.

##### Easy Management

The Flyingvoice G508 not only supports Auto-Provisioning and Auto-upgrade via FACS and TR069, but can be managed remotely by internal web servers, SNMP, and HTTP/TFTP/FTP, bringing great convenience.

##### High Security and Compatibility

Based on SIP V2, it is compatible with most service providers. Moreover, your conversations are well protected by configuration files with AES, SRTP and TLS call encryption, etc.

- 8 FXS ports & 8 SIP lines
- 2 x 10/100/100Mbps Ethernet port
- 3-way conference
- Support T.38, T.30 fax protocol
- Support NAT
- Support VPN (PPTP,L2TP)

I/O interfaces	
I/O Interfaces	<ul style="list-style-type: none"> <li>&gt; 1×RJ45 for 10/100/1000M WAN port</li> <li>&gt; 1×RJ45 for 10/100/1000M LAN port</li> <li>&gt; 8×RJ11 for FXS port</li> <li>&gt; 1x Power port</li> </ul>
