FLYÍNGVOICE

P11S

Entry level Office IP Phone

This easy-to-use color screen IP phone can help you improve work efficiency and ensure high-quality voice communication. Equipped with a 2.4-inch 320*240px color display with an adjustable backlight, it provides users with high-resolution graphics and a colorful experience. The P11S supports 2 SIP accounts, P11S integrated 100M dual Ethernet ports with PoE for easy network connection. And it supports HD voice technologies including wideband codec G.722 and opus for high-quality calls. In addition, it is easy to set up at 60 and 45 angles on a desk or 15-angle mount on the wall, meeting different application scenarios.

Key Features

🗹 rand-new Look, Practical details

P1X Series IP phones provides a new intuitive interface design and a 2.4-inch 320*240px color display with an adjustable backlight, which brings a clear and colorful visual experience to users.

HD Audio, Better Calling Experience

Featuring HD voice technologies Wideband Codec G.722 and Opus, the P1X Series delivers excellent sound quality and allows fluent conversations.

🔡 Online Management Platforms, Easy Deployment

P1X Series IP phones support simple-to-deploy and easy-to-manage by Flyingvoice's online platforms such as FACS and FRPS and auto-provisioning modes TFTP/HTTP/HTTPS, making mass deployment and maintenance extremely easy.

🕑 High Security, Strong Compatibility

P1X Series IP phones are well protected by configuration files with AES, SRTP and TLS call encryption, etc. They are widely compatible with SIP based devices and PBX platforms such as Broadsoft, Metaswitch and Yeastar, etc.

• 2.4" 320x240-pixel color LCD with

an adjustable backlight

- Dual 100M Ethernet ports
- PoE
- 2 SIP accounts
- 2 Line keys with dual-color LEDs
- 3 Function keys with single color LED
- HD voice
- Support RJ9 headset
- 6-Way audio conference
- Opus
- Stand with 2 adjustable angles
- Wall mountable

About FLYINGVOICE

Established in 2007, Flyingvoice is a global SME high-tech enterprise specializing in network communication terminal products. With research hubs strategically located in Bangkok, Hong Kong, and Shenzhen, and manufacturing facilities in Shenzhen and Vietnam, we ensure cutting-edge innovation and reliable production.

After more than 10 years of development, Flyingvoice has curated three product lines: IP Phones, POTS Replacement, and 5G FWA. Our mission is to provide SME customers with easily deployable and manageable network communication terminal products, along with voice and data communication solutions. We also offer the most comprehensive POTS Replacement solutions in the industry.

Flyingvoice products meet rigorous telecom-grade standards and are widely embraced by leading carriers globally. As of 2023, our POTS replacement products are favored by carriers in South Korea and North America, while IP Phones are extensively utilized in South Korea, India, and China. Notably, Flyingvoice's 5G FWA products have been mass deployed by carriers in China and India.

At the same time, Flyingvoice places great emphasis on supporting enterprise integration clients. With distribution and integration partners across major countries and regions worldwide, we've built a robust technical support system, guaranteeing efficient service delivery to our customers.
