

## P10LTE

### Entry-level office 4G LTE IP phone

Flyingvoice P10LTE entry-level office 4G LTE IP phone is equipped with a 2.3-inch 132\*64px B&W LCD screen with backlight. It adopts a simple appearance design and button layout to provide users with a good visual experience. P10LTE phone integrates 4G LTE module, provides a card slot for external SIM card, allowing users to plug and play which can meet the use of LTE network frequency bands in multiple regions. It also supports 100M wired network access to meet the different network needs of corporate offices. In addition, P10LTE phone also supports HD voice, six-way conference, and is easy to install, meeting different application scenarios for desktop office and wall-mounted use.

### Key Features

#### 4G SIM card, Convenient Networking

P10LTE phone integrates LTE module inside, which supports full-duplex FDD, and can plug in a SIM card to make networking more convenient. With its 4G mobile network, it easily handles all kinds of network-less environments.

#### HD Voice, Better Calls

P10LTE phone supports Opus wideband audio codec, adopts advanced echo cancellation technology and intelligent noise cancellation technology to provide users with HD voice and achieve better voice call effect.

#### Easy Installation, Easy Deployment

P10LTE phone is combined with FRPS system and FACS platform for unified, fast and efficient batch deployment, which greatly reduces time and labor costs, and facilitates management, upgrade and maintenance.

#### High security and compatibility

P10LTE phone uses SRTP and TLS call encryption technology to protect your call security well. They are widely compatible with SIP based devices and PBX platforms such as Broadsoft, Metaswitch and Yeastar, etc.

- 2.3" 132x64-pixel graphical LCD with an adjustable backlight
- 2 x 10/100 Mbps Ethernet ports
- 1 x SIM card slot (support LTE network)
- 6-Way audio conference
- 2 SIP accounts
- HD Voice
- Opus
- Support RJ9 headset
- Wall mountable

## Place order

<b>Model</b>	P10LTE NA	P10LTE SA	P10LTE CN
<b>Module</b>	EG95-NAX	EG915U-LA	EC800M-CN
<b>Region</b>	North America	South America	China / India
<b>Category</b>	Cat 4	Cat 1	Cat 1
<b>Frequency Band</b>	> LTE-FDD: B2/4/5/12/13/25/26 > WCDMA: B2/4/5	> LTE-FDD: B2/3/4/5/7/8/28/66 > GSM: B2/3/5/8	> LTE-FDD: B1/3/5/8/34/38/39/40/41 > LTE-TDD: B34/38/39/40/41

## About FLYINGVOICE

Established in 2007, Flyingvoice is a global SME high-tech enterprise specializing in network communication terminal products. With research hubs strategically located in Bangkok, Hong Kong, and Shenzhen, and manufacturing facilities in Shenzhen and Vietnam, we ensure cutting-edge innovation and reliable production.

After more than 10 years of development, Flyingvoice has curated three product lines: IP Phones, POTS Replacement, and 5G FWA. Our mission is to provide SME customers with easily deployable and manageable network communication terminal products, along with voice and data communication solutions. We also offer the most comprehensive POTS Replacement solutions in the industry.

Flyingvoice products meet rigorous telecom-grade standards and are widely embraced by leading carriers globally. As of 2023, our POTS replacement products are favored by carriers in South Korea and North America, while IP Phones are extensively utilized in South Korea, India, and China. Notably, Flyingvoice's 5G FWA products have been mass deployed by carriers in China and India.

At the same time, Flyingvoice places great emphasis on supporting enterprise integration clients. With distribution and integration partners across major countries and regions worldwide, we've built a robust technical support system, guaranteeing efficient service delivery to our customers.
