FLYINGVOICE

Chapter 1

Flyingvoice Introduction

01

Established in 2007, Flyingvoice is a global SME high-tech enterprise specializing in network communication terminal products.

After more than 10 years of development, Flyingvoice has curated three product lines: **IP Phones, POTS Replacement and 5G FWA**。Our mission is to provide SME customers with easily deployable and manageable network communication terminal products, along with voice and data communication solutions. We also offer the most comprehensive POTS Replacement solutions in the industry.

Flyingvoice

Based in Shenzhen, With research hubs strategically located in Bangkok, Hong Kong, and Shenzhen, and manufacturing facilities in Shenzhen and Vietnam, we ensure cutting-edge innovation and reliable production.Flyingvoice products meet rigorous telecom-grade standards and are widely embraced by leading carriers globally. As of 2023, our POTS replacement products are favored by carriers in South Korea and North America, while IP Phones are extensively utilized in South Korea, India, and China. Notably, Flyingvoice's 5G FWA products have been mass deployed by carriers in China and India. At the same time, Flyingvoice places great emphasis on supporting enterprise integration clients. With distribution and integration partners across major countries and regions worldwide, we've built a robust technical support system, guaranteeing efficient service delivery to our customers. As a manufacturer, we have supported made in China, made in Vietnam, made in India.

Chapter 2

Flyingvoice Capabilities

02

01 Worldwide Marketing Network

A global sales network with physical sales channels across **Asia, Europe, North America, South America, the Middle East, Africa,** and other regions. This setup provides customers globally with convenient purchasing options and localized services.

02 Market Recognition and Share

➢ International Market Performance

We have partnered with top carriers such as **AT&T (USA), JIO (India), KT (Korea), and SKB (South Korea)**, becoming their preferred supplier.

➢ China Market Performance

the first manufacturer to launch Wi-Fi phones on the market.

03 Industry Benchmark

Built a substantial portfolio of successful cases, particularly in carrier networks, corporate offices, and hotel communications, offering tailored solutions.

Awards and Honors

Received accolades such as Internet Telephony Product of the Year, China Export Commodity Brand Certificate, and various other honors.

Technical Partnerships

Collaborates with over 20 technical partners,including NetSapiens,Cisco,broadworks,Metaswitch,Yeastar,Vodia,Fusion PBX,and others.

FLYINGVOICE

Mesh Router

- **Wi-Fi 6 Technology**

Features a 2T2R MIMO antenna with 2.4G & 5G dual-band capabilities, up to AX3000 wireless speeds, and supports over 120 connected devices per router.

- **Integrated Routing and VoIP**

Flyingvoice wireless router integrates FXS port with SIP voice call, IP sharing and QoS。

5G CPE

- **Dual-Mode High-Speed 5G**

Supports both NSA & SA networks, with speeds up to 2.5 Gbps

- **Strong Signal Coverage**

Utilizes directional and omnidirectional hybrid antenna technology, supporting Sub-6 GHz bands.

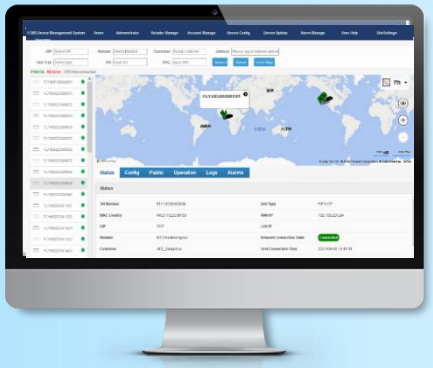
- **Durable and Reliable**

Rated IP65 for dust and water resistance, 4KV lightning protection, and can be mounted on walls, poles, or windows indoors or outdoors.

Management Platform

Management Platform

FLYINGVOICE



FACS

Provide customers with cloud-based unified management of equipment, remote maintenance, provision and other services.
